Who We Are...

- PERA-BEAM Limited commenced business as a subsidiary of UACN some 50yrs ago
- PERA came out from Pan Electric Refrigeration and Air-conditioning. BEAM – Business Equipment and Automated Machines The name PERA-BEAM evolved from amalgamation of the two business units.
- In 2003, some private investors, who are majority shareholders, along with some employees of UACN bought the company, put in place a new management to reposition it on the path of sustainable growth and profitability.
- PERA-BEAM today, is a leading player in commercial and room air-conditioning sales, installation, services and hire.
- We are building partnerships with reputable OEMs to deliver quality products and world class services to our clients. These include global brands like LG Electronics, INVENTOR Air Conditioners, PANASONIC, DAIKIN and WINSOLAR.
- Today, we are positioned as a full-fledged Building Services Provider, incorporating HVAC, Low Voltage Electrical Distribution, Plumbing, Fire Protection and Building Management Systems.
- PERA-BEAM Limited is a wholly Nigerian company managed by a team of professionals with a world class exposure in technical and commercial operations. The Board of Directors consist of notable Nigerians who had made marks in their various endeavours.

Inventor Air-Conditioning

Pera-Beam Limited through its subsidiary, Cryogeny Global Resource Ltd, is an authorized sales and service partner of Inventor in Nigeria. Inventor aims to offer the air-conditioning professional and end-user top quality products at competitive prices.

We offer unique products and flexible services to control their ambient temperature and create the ideal conditions in their homes and offices while saving energy and money.

All Inventor Air-conditioning products are accompanied with a minimum of 2-year warranty which could be extended. The high quality of raw materials and the special production process guarantee the excellent performance of all Inventor products for many years, even for the most demanding conditions.

The competitive advantage of Inventor Air-Conditioning products is our engagement with our customers, relying always on top quality and reliability.

- 2 Year Warranty for all Inventor Air-conditioners
- Ducted Air-conditioners, the business power for all conditions.
- Ideal for business environment with increased demand in Air-conditioning.
- The ideal solution for every business environment

LG AUTHORIZED PARTNERS

Pera-Beam Limited is in partnership with LG for supply of Air Conditioners (Room, light commercial and Commercial Air Conditioners) consisting of an indoor, wall-mounted unit that is connected to an outdoor unit, these air conditioners feature powerful air throw and louver control for ultra-fast cooling. In addition, many units feature ARTCOOL changeable panels, which allow you to change the colour of your air conditioning unit to match your room's decor. Wall Air Conditioners: Installed in walls, these air conditioners offer powerful performance and 4-way air deflection and auto swing, which allow you to direct airflow to every corner of the room.

- LG light commercial air conditioners are available in a range of sizes and styles. Explore our newest collection – and create a space that's cool and comfortable all year long:
- Ceiling Cassette Air Conditioner: These light commercial ACs boast an ultra slim and compact design with a high ceiling mode, clean air filtration, and independent vane operation.
- Convertible Air Conditioner: Featuring power cooling and a wide operation range up to 54 degrees Celsius, these light commercial air conditioners are easy to install and ideal for restaurants.
- Duct Air Conditioner: Offering a seamless design, these LG light commercial ACs are hidden in the ceiling and feature External Static Pressure Control and Precise Temperature Control.
- Floor Standing Air Conditioner: Featuring a slim, unobtrusive design and innovative technology, our floor standing light commercial ACs give you a powerful cooling option that won't disrupt your office's traffic flow.
- Eco-Friendly and energy efficient VRF system with minimum total life cycle cost.

In addition to offering state-of-the-art air conditioners, Pera-Beam Limited also offers world-class services and support to help ensure that your system works properly now, and for years to come.
